All Tired Out
Pale, Thin, Poor Blood, No Energy
These are the symptoms of impure blood, starved blood. Take out the impurities, feed the blood, and health quickly returns.

Mrs. George Mitchell, of Yulie St., Bonning, Victoria, sends us her photograph with the following story:
"I suffered terribly from debility. I had no energy. I was tired in the morning as at night. It did not seem possible for me to keep up. I was thin and pale, and my blood was very poor. I had no appetite. I gradually grew weaker and weaker. When almost completely exhausted I read about

AYER'S Sarsaparilla

I immediately tried it, and began to improve at once. A few bottles completely restored me to health.
There are many imitation Sarsaparillas. Be sure you get "Ayer's."
Ayer's Pills will greatly aid the action of the Sarsaparilla. They are all vegetable, mild, sugar-coated, and easy to take.

M'CANDLESS AND LANE ON IWILEI

(Continued from page one.)

be examined once a week, and have certificates issued to them by a doctor to be able to ply their trade in Iwilei, and if they do not secure these certificates, the police arrest them.

Your committee find a policeman, in the employ of the Police Department, who has an office in the same cottage with Doctor Cooper, and seems to be in full charge and control of all the women in Iwilei. The President of the Board of Health stated before the committee that it had no one to represent it in Iwilei outside of a Sanitary Inspector whose name is Manned Silva.

We find that the Police Officer, Paul Smith, is wearing a badge of Health, and that he has also been incorporated by Doctor Cooper. Mr. Pinkham, President of the Board of Health, stated that he had nothing to do with any appointment or any of the workings as far as the physicians in Iwilei were concerned, but the evidence of Doctor Hoffman in applying by telephone for blank certificates shows that he (Doctor Hoffman) was informed by someone representing the Board of Health from the Board of Health office that the Iwilei matter was all in the hands of Doctor Cooper, and that he was the one to see, and further find that Paul Smith as agent of the Board of Health and Police Officer receives \$70 per month from the Police Department, and \$30 per month from Doctor Cooper, and as the agent of the Board of Health serves without pay as far as your committee can ascertain, but is nevertheless clothed with all the powers of the Board of Health.

From this evidence it would appear that the president of the Board of Health is reckless in his statements, does not know when he makes an appointment or know about any particular rules as to the appointment of physicians under the Board of Health or, he may have a convenient memory.

(2) By who or whom are such examinations made?
Your committee find that the examinations made in Iwilei are made by one physician only, Doctor C. B. Cooper.

(3) What charges are made for such examinations? And what is the amount collected per day, week, month or year? And what disposition is made of the money so collected?

Your committee find that Doctor Cooper charges \$1 per week for each woman examined, and also find that there are at the present time about, stated by Doctor Cooper to be 125, women at present examined each week, but your committee find that in some cases only three examinations are made per month. If four examinations are made say on the basis of 125 women per week, we find that Doctor Cooper collects about \$512 per month per month, but if only three examinations are made, we find that he collects about \$384 per month, or on an average about \$450 per month. This revenue so collected your committee finds goes to Doctor Cooper for his own personal use and benefit. Although in the early part of such examinations Doctor Cooper acted as a Sanitary Police Commissioner appointed as such by the High Sheriff, we fail to find where any moneys collected by him, as such, have ever been turned into the government as a government realization.

(4) Are such prostitutes obliged to live in any one particular portion of Iwilei? If not, have not such prostitutes been ordered in the near future to live in one particular portion of Iwilei? And if so, by whom ordered and who are the owner or owners of such particular portion of Iwilei?

Your committee find that the High Sheriff of the Territory, through his agents, has ordered all of such women that are found in different parts of the city, and also in some portions of Iwilei, to move to one particular part as follows on the makai side of the Iwilei rice mill, and on the Ewa side of the Iwilei road.

From further investigations we find that the rules and regulations as laid down by the High Sheriff requiring these unfortunate women to live in the one particular portion of Iwilei hereinbefore referred to, is, in the judgment of your committee, unwarranted for the following reasons:

In the section so set apart, rooms rent at from six to eight dollars per month, while across the road on the Waikiki side of Iwilei road, rooms rent for two and a half dollars per month, and a little further up the road, rooms can be had at from one and a half dollars to two dollars per month, the owners of which are not able to rent the same even at that price.

Your committee sees no reason why the High Sheriff should so discriminate in favor of one person in Iwilei to the disadvantage of another, and more so on account of the fact that the portion so laid out has not been used so extensively for the immoral purpose of these women as the premises on the Waikiki side of the Iwilei road, and also a little further up the road which he wishes to close up.

Your committee cannot believe that this is done for any moral reason as there are a few families living on the Ewa side adjoining the particular portion so set out, while on the Waikiki side of the road there is nothing adjoining except vacant lands, the Ferreller Words, the Oil Tanks and the United States corral, which is hardly ever now used and by no families whatever. Any and all such rules and regulations, in the opinion of your committee should be immediately rescinded by the High Sheriff.

The whole of Iwilei makai of the Oahu prison has been used for the purposes of prostitution for some time past, and your committee cannot see, except for personal reasons, why the High Sheriff, or any one else, should try to force any of these people into any one particular portion and especially in a portion where the High Sheriff, from the evidence produced, is personally interested, owning quite a piece of property in this small corner set apart by him upon which is located the offices of Doctor Cooper, as well as being interested in the Fidelity Insurance Company, as a director, which company owns three large buildings containing, according to the testimony of Ogata, about forty-eight rooms, which brought, prior to the order of the present High Sheriff, less than one dollar per room per month.

In regard to who the examinations are made by your committee finds that the examinations as at present carried on by Doctor Cooper should be stopped for the following reasons:

According to the statement of Doctor Hoffman, it takes from fifteen to thirty minutes to make one proper examination. Doctor Judd states that it would take twenty minutes or more to make one proper examination. Say it took the least time mentioned, namely, fifteen minutes, it would take to examine forty-five women which Doctor Cooper states he examines in from two to two and one half hours, eleven hours and fifteen minutes. This will give you some idea as to the manner in which these examinations are being at present made. Doctor Cooper examines forty-five in say from two to two and one-half hours, this is at the rate of from 18 to 22 an hour, or on an average of one in about every three minutes. Doctor Cooper's own statement shows that it takes him from five to ten minutes in ordinary cases, and in extraordinary cases from fifteen to twenty minutes to make proper examination. Your committee makes these comparisons to show the results of his testimony if you scrutinize it carefully. Besides this Doctor Cooper testified before your committee that he had given these women the benefit of a free clinic at Iwilei, which surely must take some of his time. When any such examinations show disease the card usually given her is taken up and she is simply allowed to go on her own account with instructions not to ply her trade until she is well and a new card issued to her. In the meantime she can go where she pleases in the city so long as she makes a daily call at Iwilei or brings a certificate that she is being attended by some practicing physician, and your committee agrees with the statement made by Doctor Cooper when he testified that these women could easily spread disease because they were out of control. In fact these examinations as at present carried on, are, in the opinion of your committee, simply a farce, the taking of money without giving value received, and the means of the Territory spending \$70 a month to round up these women in order that one particular doctor can collect about 450 per month from them, of which the only outlay that we can see from the evidence produced in office rent and \$30 a month that Doctor Cooper gives the representative of the Police Department at Iwilei for services rendered when such police officer is in the pay of the government of the Territory and this, in the opinion of your committee, should not be tolerated.

Respectfully submitted,
L. L. McCANDLESS,
JOHN C. LANE.

The following is the Hayselden report:

Honolulu, T. H., April 4th, 1905.
Honorable D. P. B. Leenberg, President of the Senate, Territory of Hawaii.
Sir:—We, the undersigned, a majority of the Special Committee, to which was referred Senate Resolution No. 46, providing for the appointment of a Special Committee of Five to investigate under what rules and regulations the prostitutes at Iwilei are controlled, etc., beg leave to report as follows:

1. What rules and regulations have been made, or made or used for the examinations and control of prostitutes at present at Iwilei, Honolulu? We find that rules and regulations have been laid down by the Police Department whereby all prostitutes, at Iwilei, are compelled to be examined once a week, and have certificates issued to them from a licensed physician, to be able to ply their trade in Iwilei and if they do not secure these certificates they are prevented from doing business.

Your committee finds that a policeman, who is in the employ of the Police Department, is employed by Dr. Cooper to keep his private books (which he does after his hours) under a salary of \$30 a month. In addition to these duties he is delegated by the High Sheriff to the special district of Iwilei. We find also, that police officer Paul Smith wears a badge of the Board of Health, and stated that he represented the Board of Health as an Agent or Inspector. This also was corroborated by Dr. Cooper that Paul Smith was an Agent of the Board of Health serving without pay. Paul Smith is in receipt of a monthly salary of \$70 from the Police Department, and as an Agent of the Board of Health serves without pay, as far as we can ascertain.

2. By whom are such examinations made?
We find that the examinations made in Iwilei are made by Dr. C. B. Cooper. These people are not compelled to go to any particular doctor. Dr. Cooper is

simply practicing in Iwilei as a private physician.

3. What charges are made for such examinations, and what is the amount collected per day, week, month or year, and what disposition is made of the money so collected? The committee finds that Dr. Cooper charges \$1 per week for each woman examined, and also find that at the present time there are about 125 women, as stated by Dr. Cooper, and 125 as stated by Paul Smith. These women are examined each week, but in some cases only three examinations have been made per month. In case any of these women are sick they are treated, free of charge, by Dr. Cooper until they have fully recovered. The amounts collected for these various examinations, by Dr. Cooper, would average about \$450 per month, which is the doctor's personal realization as the result of his private practice, but Doctor Cooper states that his expenses per month are about \$150, and the difference would be the value of the practice to Dr. Cooper.

4. Are the prostitutes obliged to live in any one particular portion in Iwilei; if not, have not such prostitutes been told, in the near future, to live in a particular portion of Iwilei, and if so, by whose order and who are the owners of such particular portion of Iwilei?

We find that the High Sheriff of the Territory, through his agents, have ordered all of such women that are found in different parts of the city and also in some portions of Iwilei, to move to that portion of Iwilei which is makai of the Iwilei rice mill, and on the Ewa side of the Iwilei road.

We find that that particular portion of Iwilei where the prostitutes are now located is owned by the Fidelity Insurance Company, Limited, and is now leased to a Japanese named Ogata by misrepresenting the object for which he wished to obtain this lease from the Waterhouse Trust Company, the agents of the Fidelity Insurance Company, Limited.

From the testimony, which this committee has taken, we find no reason to censure any one for the conditions existing in Iwilei. The matter has been, so far as we have been able to find out, conducted, by those who had the matter in hand, for the best interests of the community and we find no occasion to censure those who have had the matter in charge, realizing that they have had a difficult matter to contend with.

There are only two ways in dealing with this question, one is, to properly regulate, and the other is, to entirely abolish. As the resolution, under which our investigation is carried on, does not require us to go into this question as to whether it is to be abolished or properly regulated we will not discuss the question.

We find that the regulations that have been enforced has had the effect of removing the evil from the resident portions of the city to a large extent, and has been the means of preventing the increase of certain diseases, and has removed it from the sight of the community.

Respectfully submitted,

NAMED AGAIN IOLANI HALE

Should the Senate concur in a joint resolution passed by the House yesterday afternoon the name of the Capitol building, the old royal palace, will be changed back to its old designation of "Iolani Hale." The subject was brought up by the following letter which was read in the House:

"Hon. E. A. Knudsen, Speaker of the House of Representatives:

"Dear Sir: The undersigned special committee of the Daughters of Hawaii, a society of Hawaiian-born women organized for the purpose of perpetuating the memory and spirit of old Hawaii, preserving the nomenclature thereof and making appropriate historical sites in their native land, do hereby petition the Legislature to pass a resolution designating the executive building now occupied by you, by the ancient and time-honored name which it has hitherto borne, 'Iolani Hale.'"

"They further petition that all official documents printed shall bear the stamp of 'Iolani Hale.'"

(Signed)
